Investing in Community For Good and For Ever

Facts, Figures And Other Highlights

Vision: Together, making our communities even better places to live, work, and play, now and forever.

- **Together:** We are collaborative. We work closely with our donors and endowment fund holders to achieve their charitable giving goals. We also work closely with our grant recipients, during the granting process and in the community. We are stronger and more effective when we work together.
- **Communities:** Our catchment area has broadened since 2003, and now includes the area from Moyie to Elkford, and from Wycliffe to the South Country. There are more and more inter-community initiatives in our area. We are part of this movement.
- **Even better places to live, work, and play:** Our communities already have many wonderful assets. We strive to strengthen these assets and to also address emerging needs and priorities. We strive to grant to the widest possible range of eligible causes.
- **Now and forever:** Our current granting is having an immediate positive impact in our communities. Because our funds are permanently invested and will grant in perpetuity, we are also building a valuable resource for future generations. Imagine the impact the Community Foundation could make in 20, 50, or 100 years.

Mission: We build permanently invested endowment funds, provide grants to qualified donees to address local community needs, and offer positive leadership to explore community priorities.

Values: CFKR CARES

Community:

- We are deeply rooted in our communities. We love where we live. We love the people in our communities and all the things they love to do. This shows in our wide range of granting.

Accountability:

- We are accountable to our donors, endowment fund holders, grant recipients, and the community at large. We strive to be transparent and accurate in all our communications. Our board of local volunteers ensures that we stay on track. We are accountable for and an excellent steward of each and every donor dollar.

Responsiveness:

- We strive to stay current with local issues and emerging needs. Our non-designated funds give us the flexibility to respond to new priorities through our annual granting. We are always open to establishing new funds, as opportunities arise.

Excellence:

- We aim for excellence in all we do, seeking to be a positive leader in our communities.

Sustainability:

- We offer a long-term approach to charitable giving. We invite donors to help create a lasting legacy that will benefit current and future generations.

- * **New name and logo** in June 2018 to better convey our expanded service area, which includes the Elk Valley
- * **Updated Vision, Mission, & Values**
- * **New 3-Yr. Strategic Plan**
- * **Four New Endowment Funds**, including the Elkford Community Fund
